Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

[Lemon Reg. 68, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. 1. Pursuant to the market-
ing agreement, as amended, and Order

No. 910, as amended (7 CFR Part 910; 27 F.R. 8346), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 910.368 (Lemon Regulation 68, 28 F.R. 6425) are hereby amended to read as follows:

(ii) District 2: 418,500 cartons.

PART 911—LIMES GROWN IN FLORIDA

Determination Relative to Expenses and the Fixing of the Rate of As- sessment for the 1963-64 Fiscal Year

Notice was published in the June 14, 1963, issue of the FEDERAL REGISTER (28 F.R. 6082) that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the 1963-64 fiscal year under the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Florida Lime Ad-

ministrative Committee, established pursuant to the aforesaid amended marketing agreement and order, it is hereby found and determined that:

§ 911.202 Expenses and rate of assessment for the 1963-64 fiscal year.

(a) **Expenses:** The expenses that are reasonable and likely to be incurred by the Florida Lime Administrative Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, for the maintenance and functioning of such committee, in accordance with the provisions thereof, during the fiscal year beginning April 1, 1963, and ending March 31, 1964, will amount to \$9,000.

(b) **Rate of assessment:** The rate of assessment which each handler who first handles limes shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order is hereby fixed at two and one-half cents (\$0.025) per bushel, or equivalent quantity of limes handled by such handler during the 1963-64 fiscal year.

(c) **Reserve:** Unexpended assessment funds, in excess of expenses incurred during the fiscal year ended March 31, 1963, shall be carried over as a reserve in accordance with the applicable provisions of § 911.42 of said amended marketing agreement and order.

(d) **Terms used in the said amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.**

It is hereby found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that (1) the relevant provisions of said amended marketing agreement and this part require that the rate of assessment fixed for a particular fiscal year shall be applicable to all assessable limes from the beginning of such year; and (2) the current fiscal year began April 1, 1963, and the rate of assessment herein fixed will automatically apply to all assessable limes beginning with such date.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: June 27, 1963.

Director, Fruit and Vegetable
Division, Agricultural Mar-
keting Service.

[Plum Order 9]

**PART 917—FRESH BARTLETT PEARS,
PLUMS, AND ELBERTA PEACHES
GROWN IN CALIFORNIA**

Regulation by Sizes

§ 917.327 Plum Order 9 (Nubiana and Queen Ann).

(a) **Findings.** (1) Pursuant to the marketing agreement, as amended, and

Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the varieties hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about the effective date hereof; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on June 25, 1963.

(b) **Order.** (1) During the period beginning at 12:01 a.m., P.s.t., July 5, 1963, and ending at 12:01 a.m., P.s.t., November 1, 1963, no shipper shall ship any package or container of Nubiana or Queen Ann plums, unless:

(i) Such plums are of a size that, when packed in a standard basket, they will pack at least a 4 x 4 standard pack; and

(ii) The diameters of the smallest and largest plums in such package or container do not vary more than one-fourth (¼) inch: *Provided*, That a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) When used in this section, "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520-51.1537 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(3) Section 917.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

**PART 917—FRESH BARTLETT PEARS,
PLUMS, AND ELBERTA PEACHES
GROWN IN CALIFORNIA**

Regulation by Grade and Size

§ 917.328 Plum Order 10 (Sugar and Diamond).

(a) **Findings.** (1) Pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the varieties hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the *FEDERAL REGISTER* (5 U.S.C. 1001-1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about July 15, 1963; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on June 25, 1963.

(b) *Order.* (1) The provisions of § 917.318 (Plum Order 1; 28 F.R. 5045) shall not apply to Sugar or Diamond plums during the period specified in subparagraph (2) of this paragraph.

(2) During the period beginning at 12:01 a.m., P.s.t., July 5, 1963, and ending at 12:01 a.m., P.s.t., November 1, 1963, no shipper shall ship any package or container of Sugar or Diamond plums, unless:

(i) Such plums grade at least U.S. No. 1;

(ii) Such plums are of a size that, when packed in a standard basket, they will pack at least a 5 x 5 standard pack; and

(iii) The diameters of the smallest and largest plums in such package or container do not vary more than one-fourth ($\frac{1}{4}$) inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(3) When used in this section, "U.S. No. 1" and "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520 to 51.1537 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(4) Section 917.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about July 15, 1963; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on June 25, 1963.

(b) *Order.* (1) During the period beginning at 12:01 a.m., P.s.t., July 5, 1963, and ending at 12:01 a.m., P.s.t., November 1, 1963, no shipper shall ship any package or container of Late Santa Rosa, Improved Late Santa Rosa, Casselman, or Salsa Pride plums, unless:

(i) Such plums grade at least U.S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade: *Provided*, That no individual package or container may contain more than a total of twenty (20) percent of such plums which do not grade U.S. No. 1, as required by the provisions of § 917.318 (Plum Order 1; 28 F.R. 5045), except that cracks emanating from the stem end which do not cause serious damage shall not be considered as a grade defect with respect to such grade;

(ii) Such plums are of a size that, when packed in a standard basket, they will pack at least a 4 x 5 standard pack; and

(iii) The diameters of the smallest and largest plums in such package or container do not vary more than one-fourth ($\frac{1}{4}$) inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) When used in this section, "U.S. No. 1," "standard pack," and "serious damage" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520-51.1537); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(3) Section 917.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

PART 917—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

Regulation by Grade and Size

§ 917.330 Plum Order 12 (Late Tragedy).

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this

section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about July 13, 1963; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on June 25, 1963.

(b) *Order.* (1) The provisions of § 917.318 (Plum Order 1; 28 F.R. 5045) shall not apply to Late Tragedy plums during the period specified in subparagraph (2) of this paragraph.

(2) During the period beginning at 12:01 a.m., P.s.t., July 5, 1963, and ending at 12:01 a.m., P.s.t., November 1, 1963, no shipper shall ship any package or container of Late Tragedy plums, unless:

(i) Such plums grade at least U.S. No. 1, except that gum spots which do not cause serious damage shall not be considered as a grade defect with respect to such grade;

(ii) Such plums are of a size that, when packed in a standard basket, they will pack at least a 5 x 6 standard pack; and

(iii) The diameters of the smallest and largest plums in such package or container do not vary more than one-fourth (¼) inch: *Provided*, That a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(3) When used in this section, "U.S. No. 1," "standard pack," and "serious damage" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520-51.1537 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified,

all other terms shall have the same meaning as when used in the amended marketing and order.

(4) Section 917.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(b) *Order.* (1) The provisions of § 917.318 (Plum Order 1; 28 F.R. 5045) shall not apply to Kelsey plums during the period specified in subparagraph (2) of this paragraph.

(2) During the period beginning at 12:01 a.m., P.s.t., July 5, 1963, and ending at 12:01 a.m., P.s.t., November 1, 1963, no shipper shall ship any package or container of Kelsey plums, unless:

(i) Such plums grade at least U.S. No. 1, except that a total tolerance of ten (10) percent for defects not considered serious damage is permitted in addition to the tolerances permitted by such grade;

(ii) Such plums are of a size that, when packed in a standard basket, they will pack at least a 4 x 4 standard pack;

(iii) The diameters of the smallest and largest plums in such package or container do not vary more than one-fourth ($\frac{1}{4}$) inch: *Provided*, That a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

Wisconsin. The entire State;

Wyoming. Albany, Big Horn, Campbell, Crook, Fremont, Goshen, Hot Springs, Laramie, Niobrara, Park, Platte, Sweetwater, Teton, Uinta, Washakie, and Weston Counties; and all of Lincoln County except that portion lying east of a line beginning at the southwest corner of Sublette County and running in a westerly direction to the Bear River Divide; thence running in a southerly direction along the Bear River Divide to U.S. Highway 30; thence running east-

erly along U.S. Highway 30 to its intersection with U.S. Highway 189; thence running in a southerly direction along U.S. Highway 189 to the Uinta County line;

Puerto Rico. The entire area; and
Virgin Islands of the United States. The entire area.

(Secs. 4, 5, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791-792, as amended, sec. 3, 33 Stat. 1265, as amended, sec. 13, 65 Stat. 693; 21 U.S.C. 111-113, 114a-1, 120, 121, 125; 19 F.R. 74, as amended; 9 CFR 78.16)

Effective date. The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER.

The amendment adds the following additional areas to the list of areas designated as modified certified brucellosis areas because it has been determined that such areas come within the definition of § 78.1(i): Elmore County in Alabama; Fulton County in Illinois; Crawford and McPherson Counties in Kansas; Bourbon County in Kentucky; De Soto County in Mississippi; Antelope and Greeley Counties in Nebraska; Erie and Highland Counties in Ohio; and Terrell County in Texas.

The amendment imposes certain restrictions necessary to prevent the spread of brucellosis in cattle and it should be made effective promptly in order to accomplish its purpose in the public interest. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

SUBCHAPTER E—AIRSPACE INEWI

[Airspace Docket No. 63-SO-8]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Designation of Transition Area

On May 3, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 4463) stating that the Federal Aviation Agency proposed to designate a transition area at Rome, Ga.

The Air Transport Association (ATA), although offering no objection to the proposed action, recommended that the

eastern boundary of the transition area be adjusted eastward to encompass a small area of uncontrolled airspace that would remain between this boundary and Victor 5. The area referred to by the ATA is not required for air traffic control purposes, and its omission from the controlled airspace environment near Rome would not add to the charting complexity. Accordingly, the Federal Aviation Agency is designating the Rome transition area as proposed.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published and for the reasons stated in the notice, § 71.181 (27 F.R. 220-139, November 10, 1962) is amended by adding the following:

Rome, Ga.

That airspace extending upward from 700 feet above the surface within an 8-mile radius of Russell Field, Rome, Ga. (latitude 34°21'00" N., longitude 85°09'30" W.), within 2 miles each side of the Rome VOR 349° radial, extending from the 8-mile radius area to the VOR; within 2 miles each side of the 165° bearing from the Rome RBN, extending from the 8-mile radius area to 8 miles S of the RBN; and that airspace extending upward from 1,200 feet above the surface bounded on the N. by latitude 34°37'00" N., on the E. by longitude 85°00'00" W., on the S. by latitude 33°59'00" N., and on the W. by longitude 85°21'00" W. excluding the portion which coincides with the Atlanta, Ga., transition area.

This amendment shall become effective 0001 e.s.t., August 22, 1963.

Issued in Washington, D.C., on June 26, 1963.

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1727; Amdt. 581]

PART 507—AIRWORTHINESS DIRECTIVES

Boeing Model 720 Series Aircraft

A proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring a heat-treat check of the main landing gear actuator beam terminal attach bolts on Boeing Model 720 Series aircraft and replacement of any where necessary, was published in 28 F.R. 4517.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

BOEING. Applies to all Model 720 Series aircraft, Serial Numbers 17907 through 17917, 18013 through 18037, 18041 through 18050, 18057, 18059 through 18066, 18072 through 18082, 18086 and 18087, 18154 through 18167, 18240 through 18244, 18248 through 18251, 18351 through 18353, 18355 and 18356, 18376 through 18384, 18416 through 18425, 18451 through 18455 and 18581.

Compliance required within the next 450 hours' time in service after the effective date of this AD, unless already accomplished.

In order to correct for the presence of any improperly heat-treated main landing gear actuator beam terminal attach bolts, P/N 63-9587-1, accomplish the following:

(a) Conduct a heat-treat check on the attach bolts, P/N 63-9587-1 (two per actuator beam).

(b) Bolts testing within the heat-treat range of 180,000 p.s.i. to 200,000 p.s.i. are acceptable for further use and may be continued in service provided they are not otherwise defective.

(c) Bolts testing outside the heat-treat range of 180,000 p.s.i. to 200,000 p.s.i. shall be replaced with bolts of proper heat-treat before further flight.

(d) If the holes in either the actuator beam or the terminal are damaged during bolt removal, the bolt holes, or the bolts may be reworked in accordance with Boeing Service Bulletin No. 1827, or an FAA equivalent approved method.

(Boeing Service Bulletin No. 1827 covers this same subject.)

This amendment shall become effective August 1, 1963.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on June 25, 1963.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

CHEWING GUM BASE

The Commissioner of Food and Drugs, having evaluated data in a petition filed by LaWall and Harrison Research Laboratories, Inc., 1921 Walnut Street, Philadelphia 3, Pennsylvania, on their own behalf and on behalf of Moore and Munger, 33 Rector Street, New York 6, New York, and other relevant material, has concluded that § 121.1059 should be amended to further define specifications of synthetic paraffin, a component of chewing gum base. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of

Health, Education, and Welfare (25 F.R. 8625), § 121.1059 is amended by substituting new specifications for synthetic paraffin, as follows:

§ 121.1059 Chewing gum base.

(a) *****

MASTICATORY SUBSTANCES

Synthetic	Specifications
Paraffin	Synthesized by Fischer-Tropsch process from carbon monoxide and hydrogen, which are catalytically converted to a mixture of paraffin hydrocarbons. Lower molecular weight fractions are removed by distillation. The residue is hydrogenated and further treated by percolation through activated charcoal. The product has a congealing point of 200° F.-210° F. as determined by A.S.T.M. D-938-49 method; a maximum oil content of 0.50 percent as determined by A.S.T.M. D-721-56T method; and an absorptivity of less than 0.01 at 290 microns in decahydronaphthalene at 190° F. as determined by A.S.T.M. 131 method.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

POLYGLYCEROL ESTERS OF FATTY ACIDS

The Commissioner of Food and Drugs, having evaluated data in a petition filed by Drew Chemical Corporation, 416 Division Street, Boonton, New Jersey, and other relevant material, has concluded that an amendment to § 121.1120 should issue to prescribe further sources of fatty acids to be used in producing polyglycerol esters of fatty acids. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the

Secretary of Health, Education, and Welfare (25 F.R. 8625), § 121.1120 (21 CFR 121.1120; 28 F.R. 2676) is amended by changing the introduction to the section and paragraph (a) to read as follows:

§ 121.1120 Polyglycerol esters of fatty acids.

Polyglycerol esters of fatty acids, up to and including the decaglycerol esters, may be safely used in food in accordance with the following prescribed conditions:

(a) They are prepared from the following edible fats and oils, and the fatty acids derived therefrom (hydrogenated and nonhydrogenated, meeting the requirements of § 121.1070(b)): Corn oil, cottonseed oil, lard, palm oil from fruit, peanut oil, safflower oil, sesame oil, soybean oil, and tallow.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

PART 53—GRANTS FOR SURVEY, PLANNING AND CONSTRUCTION OF HOSPITALS AND MEDICAL FA- CILITIES

Miscellaneous Amendments

Notice of proposed rule making, public rule making procedures and postponement of effective date have been omitted in the issuance of the following amendments of this part, which relate solely to grants to States, political subdivisions and public or other nonprofit agencies for the construction of public and other nonprofit hospitals and medical facilities.

1. Paragraph (w) of § 53.1 is amended to read as follows:

(w) *State.* The 50 States, Puerto Rico, Guam, Virgin Islands, American Samoa, and the District of Columbia.

2. Paragraph (a) of § 53.11 is amended to read as follows:

(a) The number of beds for acute and long-term illness required to provide adequate service to the people residing in the State shall be:

(i) For general hospitals,
(i) In States having 12 or more persons per square mile, 4.5 beds per thousand population;

(ii) In States having less than 12 and more than 6 persons per square mile, 5 beds per thousand population; and

(iii) In States having 6 persons or less per square mile, 5.5 beds per thousand population.

(2) For chronic disease hospitals, 2 beds per thousand population, except as provided in subparagraph 3 of this paragraph.

(3) For nursing homes, 4.5 beds per thousand population, provided that the total number of nursing home beds and chronic disease beds shall not exceed 5 beds per thousand population.

3. Paragraph (a) of § 53.123 is amended to read as follows:

(a) A system of personnel administration on a merit basis shall be established and maintained with respect to the personnel employed in the administration of the State plan. Such a system shall include provision for:

(1) Impartial administration of the merit system;

(2) Operation on the basis of published rules or regulations;

(3) Classification of all positions on the basis of duties and responsibilities and establishment of qualifications necessary for the satisfactory performance of such duties and responsibilities;

(4) Establishment of compensation schedules adjusted to the responsibility and difficulty of the work;

(5) Selection of permanent appointees on the basis of examinations so con-

structed as to provide a genuine test of qualifications and so conducted as to afford all qualified applicants opportunity to compete;

(6) Advancement on the basis of capacity and meritorious service; and

(7) Tenure of permanent employees.

Substantial compliance with the Standards for a Merit System of Personnel Administration, issued by the Secretary of Health, Education, and Welfare, the Secretary of Labor, and the Secretary of Defense on January 26, 1963, 28 F.R. 734, including any subsequent amendments thereof, will be deemed to meet the requirements of the regulations in this part.

4. Paragraph (c) of section 53.134 is amended so that the provision relating to "Treatment room" will read as follows:

Treatment room: One for each two nursing units per floor.¹

5. Paragraph (h) of section 53.134 is amended so that the provisions under "Employees' facilities" will read as follows:

(h) *Service department.*

* * * * *

Employees' facilities:

Nurses' locker room:

Lockers as required.

Rest room.

Toilet room.

Female help lockers:

Locker room.

Rest room.

Toilet and shower room.¹

Male help lockers:

Locker room.

Toilet and shower room.¹

Ratio of male and female help will vary and size of locker rooms must be adjusted accordingly.

6. Subdivision (i) of § 53.153(a)(13) is amended to read as follows:

(13) *Incinerators:* (i) An incinerator shall be installed in each hospital. The incinerator shall be designed to burn completely 60 percent wet garbage without objectionable smoke or odor. Where garbage is removed from the premises or disposed of by other means, incinerators will be required for the disposal of dressings, contagious and infectious materials, amputations and general rubbish. Rubbish incinerators shall be designed to completely burn 50 percent wet rubbish without objectionable smoke or odor. Gas- or oil-fired incinerators are desirable. Incinerators with capacities up to 500 pounds shall have the enclosing walls of combustion chambers lined with fire brick not less than 4½ inches thick. Incinerators of greater capacity shall have not less than 9-inch fire brick lining. The gases shall be carried to a point above the roof of the hospital. Flue fed type incinerators which have an identical refuse chute and smoke flue shall not be installed in hospitals or medical facilities.

7. Subdivision (iv) of § 53.153(b) (13) is amended to read as follows:

(iv) Patient lavatories, service lavatories, and sinks which may be used for filling pitchers shall have the spout mounted so that it is a minimum distance of 5 inches above the flood rim of the fixture. All lavatories and sinks used by patients, doctors, nurses, and food handlers shall be trimmed with valves which can be operated without the use of the hands. Wrist, knee and foot action valves meet this requirement. If wrist action valves are used on patient lavatories the blade handles shall not exceed 4½ inches in length.

8. Paragraph (d) of § 53.153 is amended to read as follows:

(d) *Elevators and dumbwaiters*—(1) *Codes*. Elevators and dumbwaiters shall comply with all local and State codes, American Standard Safety Code for Elevators, Dumbwaiters and Escalators (A17.1—1960), The National Board of Fire Underwriters, the National Electrical Code, and the minimum general standards as set forth herein.

(2) *Number of elevators*. (i) Any hospital, rehabilitation facility, or nursing home with patients on one or more floors above the first or where the operating or delivery rooms are above the first floor shall have at least one electric motor driven hospital-type elevator with car inside dimensions of at least 5'0" wide by 7'6" deep and door clear opening of not less than 3'8"8. Hospital, rehabilitation facilities, or nursing homes with a bed capacity of from 60 to 200 above the first floor shall have not less than two such elevators. Hospitals with a bed capacity of from 201 to 350 above the first floor shall have not less than three such elevators. Elevators provided in addition to these minimums may be of any type considered suitable.

(ii) Elevator cars shall be constructed of all noncombustible material.

(3) *Controls*. Elevators shall have either generator field control or multi-voltage control where speed is greater than 150 feet per minute. Elevators with speeds of more than 350 feet per minute shall be the gearless type. Elevators shall have automatic leveling of the two-way automatic maintaining type with accuracy within plus or minus ½".

(4) *Operation*. Elevators for which operators will not be regularly employed shall be equipped for automatic operation and shall have car switch to permit operation by an attendant during special occasions, or to bypass registered calls in emergencies.

(5) *Dumbwaiters*. Cars of electrically-operated dumbwaiters shall be of steel. When travel does not exceed 50 feet, the minimum speed shall be 50 feet per minute; for travel of more than 50 feet, the minimum speed shall be 100 feet per minute. When speed exceeds 100 feet per minute, provision shall be made for a reduced stopping speed of

not more than 50 feet per minute. Operation shall be by momentary contact pushbutton.

(6) *Tests*. Elevator and dumbwaiter machines shall be tested for speed and load with and without loads in both directions. Elevators shall be tested for leveling and shall be given overspeed tests as specified in A17.1—1960 American Standard Safety Code for Elevators, Dumbwaiters, and Escalators.

9. Subparagraph (2) of § 53.154(b) is amended to read as follows:

(2) *(Second stage) preliminary plans, elevations, and outline specifications*.

(i) (a) Development of the preliminary sketch plans indicating in more detail the assignment of all spaces, size of areas and rooms, and including single line layouts of air conditioning and ventilation ducts, heating and steam mains, hot and cold water systems, and soil and waste lines. Indicate in outline the fixed and movable equipment and furniture.

(b) The plans shall be drawn at a scale sufficiently large to clearly present the proposed design.

(c) The total floor area shall be computed and shown on the drawings.

(d) The drawings shall include a plan for each floor, including the basement or ground floor, roof plan, approach plan showing roads, parking areas, side-walks, etc., elevations of all facades, and sections through the building. Mechanical drawings shall show (1) single line layouts of all air conditioning and ventilation duct systems, (2) layout of heating, chilled water and steam mains, (3) location of heating, ventilation and cooling units, (4) layout of cold and hot water supply and soil and waste systems, (5) layouts of oxygen, nitrous oxide, suction and special piping systems, (6) scale layout of boiler and other equipment rooms, including main pieces of equipment, (7) riser diagrams for the enumerated systems shall be shown for multi-story construction.

(ii) Outline specifications shall provide a general description of the construction, including interior finishes; acoustical material, its extent and type; extent of conductive floor covering. Description of the type of pipe and fittings for all plumbing, heating, ventilation and air conditioning systems. Description of the air conditioning, heating and ventilation systems and their controls. Description of the steam heated equipment such as sterilizers, kitchen and laundry equipment, and the type of elevators.

(iii) Revised cost estimates.

10. Subpart N—Appendix B; Merit System Policies of the Public Health Service is deleted.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Extending to Fishermen the Same Treatment Accorded Farmers in Relation to Estimated Tax

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] MORTIMER M. CAPLIN,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) under sections 6015(f), 6073, 6153, and 6654 of the Internal Revenue Code of 1954 to the Act of September 25, 1962 (Public Law 87-682, 76 Stat. 575), such regulations are amended as follows:

PARAGRAPH 1. Section 1.6015(f) is amended by revising subsection (f) of section 6015 and the historical note to read as follows:

§ 1.6015(f) Statutory provisions; declaration of estimated income tax by individuals; return as declaration or amendment.

SEC. 6015. Declaration of estimated income tax by individuals. * * *

(f) Return as declaration or amendment. If on or before January 31 (or February 15, in the case of an individual referred to in section 6073(b), relating to income from farming or fishing) of the succeeding taxable year the taxpayer files a return, for the taxable year for which the declaration is required, and pays in full the amount computed on the return as payable, then, under

regulations prescribed by the Secretary or his delegate—

(1) If the declaration is not required to be filed during the taxable year, but is required to be filed on or before January 15, such return shall be considered as such declaration; and

(2) If the tax shown on the return (reduced by the sum of the credits against tax provided by part IV of subchapter A of chapter 1) is greater than the estimated tax shown in a declaration previously made, or in the last amendment thereof, such return shall be considered as the amendment of the declaration permitted by subsection (e) to be filed on or before January 15.

In the application of this subsection in the case of a taxable year beginning on any date other than January 1, there shall be substituted, for the 15th or last day of the months specified in this subsection, the 15th or last day of the months which correspond thereto.

[Sec. 6015(f) as amended by sec. 74, Technical Amendments Act 1958 (72 Stat. 1660); sec. 1(a)(1), Act of Sept. 25, 1962 (Public Law 87-682, 76 Stat. 575)]

PAR. 2. Section 1.6015(f)-1 is amended by revising subparagraph (1) of paragraph (a) to read as follows:

§ 1.6015(f)-1 Return as declaration or amendment.

(a) Time for filing return. (1) If the taxpayer files his return for the calendar year on or before January 31 (or February 15, in the case of an individual referred to in section 6073(b), relating to income from farming or, with respect to taxable years beginning after December 31, 1962, from fishing) of the succeeding calendar year, or if the taxpayer is on a fiscal year basis, on or before the last day of the first month (in the case of a farmer or, with respect to taxable years beginning after December 31, 1962, a fisherman, the 15th day of the second month) immediately succeeding the close of such fiscal year), and pays in full the amount computed on the return as payable, then—

(i) If the declaration is not required to be filed during the taxable year, but is required to be filed on or before January 15 of the succeeding year (or the date corresponding thereto in the case of a fiscal year), such return shall be considered as such declaration; or

(ii) If a declaration was filed during the taxable year, such return shall be considered as the amendment of the declaration permitted by section 6015(e) to be filed on or before January 15 of the succeeding year (or the date corresponding thereto in the case of a fiscal year). Hence, for example, an individual taxpayer on the calendar year basis who, subsequent to September 1, 1963, first meets the requirements of section 6015(a) which necessitate the filing of a declaration for 1963, may satisfy the requirements as to the filing of such declaration by filing his return for 1963 on or before January 31, 1964 (February 15, 1964, in the case of a farmer or fisherman), and paying in full at the time of such filing the tax shown thereon to be

payable. Likewise, if a taxpayer files on or before September 15, 1963, a timely declaration for such year and subsequent thereto and on or before January 31, 1964, files his return for 1963, and pays at the time of such filing the tax shown by the return to be payable, such return shall be treated as an amended declaration timely filed.

PAR. 3. Section 1.6073 is amended by revising subsections (a) and (b) of section 6073 and by adding a historical note. The amended provisions read as follows:

§ 1.6073 Statutory provisions; time for filing declarations of estimated income tax by individuals.

SEC. 6073. Time for filing declarations of estimated income tax by individuals—(a) Individuals other than farmers or fishermen. Declarations of estimated tax required by section 6015 from individuals regarded as neither farmers nor fishermen for the purpose of that section shall be filed on or before April 15 of the taxable year, except that if the requirements of section 6015 are first met—

(1) After April 1 and before June 2 of the taxable year, the declaration shall be filed on or before June 15 of the taxable year, or

(2) After June 1 and before September 2 of the taxable year, the declaration shall be filed on or before September 15 of the taxable year, or

(3) After September 1 of the taxable year, the declaration shall be filed on or before January 15 of the succeeding taxable year.

(b) Farmers or fishermen. Declarations of estimated tax required by section 6015 from individuals whose estimated gross income from farming or fishing (including oyster farming) for the taxable year is at least two-thirds of the total estimated gross income from all sources for the taxable year may, in lieu of the time prescribed in subsection (a), be filed at any time on or before January 15 of the succeeding taxable year.

[Sec. 6073 as amended by secs. 1 (a) (2), (b), (c), Act of Sept. 25, 1962 (Public Law 87-682, 76 Stat. 575)]

PAR. 4. Section 1.6073-1 is amended by revising paragraphs (a), (b), and (d) to read as follows:

§ 1.6073-1 Time and place for filing declarations of estimated income tax by individuals.

(a) Individuals other than farmers or fishermen. Declarations of estimated tax for the calendar year shall be made on or before April 15th of such calendar year by every individual whose anticipated income for the year meets the requirements of section 6015(a). If, however, the requirements necessitating the filing of the declaration are first met, in the case of an individual on the calendar year basis, after April 1st, but before June 2d of the calendar year, the declaration must be filed on or before June 15th; if such requirements are first met after June 1st and before September 2d, the declaration must be filed on or before September 15th; and if such requirements are first met after September 1st, the declaration must be filed on or before January 15th of the succeeding

calendar year. In the case of an individual on the fiscal year basis, see § 1.6073-2.

(b) *Farmers or fishermen*—(1) *In general.* In the case of an individual on a calendar year basis, whose estimated gross income from farming (including oyster farming) or, with respect to taxable years beginning after December 31, 1962, from fishing for the calendar year is at least two-thirds of his total estimated gross income from all sources for such year, his declaration may be filed on or before the 15th day of January of the succeeding calendar year in lieu of the time prescribed in paragraph (a) of this section. For the filing of a return in lieu of a declaration, see paragraph (a) of § 1.6015(f)-1.

(2) *Farmers.* The estimated gross income from farming is the estimated income resulting from oyster farming, the cultivation of the soil, the raising or harvesting of any agricultural or horticultural commodities, and the raising of livestock, bees, or poultry. In other words, the requisite gross income must be derived from the operations of a stock, dairy, poultry, fruit, or truck farm, or plantation, ranch, nursery, range, orchard, or oyster bed. If an individual receives for the use of his land income in the form of a share of the crops produced thereon such income is from farming. As to determination of income of farmers, see sections 61 and 162 and the regulations thereunder.

(3) *Fishermen.* The estimated gross income from fishing is the estimated income resulting from the catching, taking, harvesting, cultivating, or farming of any kind of fish, shellfish (for example, clams and mussels), crustacea (for example, lobsters, crabs, and shrimps), sponges, seaweeds, or other aquatic forms of animal and vegetable life. The estimated gross income from fishing includes the income expected to be received by an officer or member of the crew of a vessel while the vessel is engaged in any such activity, whether or not the officer or member of the crew is himself so engaged, and, in the case of an individual who is engaged in any such activity in the employ of any person, the income expected to be received by such individual from such employment. In addition, income expected to be received for services performed as an ordinary incident to any such activity is estimated gross income from fishing. Similarly, for example, the estimated gross income from fishing includes income expected to be received from the shore services of an officer or member of the crew of a vessel engaged in any such activity, if such services are an ordinary incident to any such activity. Services performed as an ordinary incident to such activities include, for example, services performed in such cleaning, icing, and packing of fish as are necessary for the immediate preservation of the catch.

(d) *Amendment of declaration.* An amended declaration of estimated tax may be filed during any interval between installment dates prescribed for the taxable year. However, no amended declaration may be filed until after the in-

stallment date on or before which the original declaration was filed and only one amended declaration may be filed during each interval between installment dates. An amended declaration shall be filed with the district director with whom the original declaration was filed.

PAR. 5. Section 1.6073-2 is amended to read as follows:

§ 1.6073-2 Fiscal years.

(a) *Individuals other than farmers or fishermen.* In the case of an individual on the fiscal year basis, the declaration must be filed on or before the 15th day of the 4th month of the taxable year. If, however, the requirements of section 6015(a) are first met after the 1st day of the 4th month and before the 2d day of the 6th month, the declaration must be filed on or before the 15th day of the 6th month of the taxable year. If such requirements are first met after the 1st day of the 6th month, and before the 2d day of the 9th month, the declaration must be filed on or before the 15th day of the 1st month of the succeeding fiscal year. Thus, if an individual taxpayer has a fiscal year ending on June 30, 1956, his declaration must be filed on or before October 15, 1955, if the requirements of section 6015(a) are met on or before October 1, 1955. If, however, such requirements are not met until after October 1, 1955, and before December 2, 1955, the declaration need not be filed until December 15, 1955.

(b) *Farmers or fisherman.* An individual on the fiscal year basis whose estimated gross income from farming or, with respect to taxable years beginning after December 31, 1962, from fishing (as defined in paragraph (b) of § 1.6073-1) is at least two-thirds of his total estimated gross income from all sources for such taxable year may file his declaration on or before the 15th day of the month immediately following the close of his taxable year.

PAR. 6. Section 1.6073-3 is amended to read as follows:

§ 1.6073-3 Short taxable years.

(a) *Individuals other than farmers or fishermen.* In the case of short taxable years the declaration shall be filed on or before the 15th day of the 4th month of such taxable year if the requirements of section 6015(a) are met on or before the 1st day of the 4th month of such year. If such requirements are first met after the 1st day of the 4th month but before the 2d day of the 6th month, the declaration must be filed on or before the 15th day of the 6th month. If such requirements are first met after the 1st day of the 6th month but before the 2d day of the 9th month, the declaration must be filed on or before the 15th day of the 9th month. If, however, the period for which the declaration is filed is one of 4 months, or one of 6 months and the requirements of section 6015(a) are not met until after the 1st day of the 4th month, or

one of 9 months and such requirements are not met until after the 1st day of the 6th month, the declaration may be filed on or before the 15th day of the succeeding taxable year.

(b) *Farmers or fishermen.* In the case of an individual whose estimated gross income from farming or, with respect to taxable years beginning after December 31, 1962, from fishing (as defined in paragraph (b) of § 1.6073-1) for a short taxable year is at least two-thirds of his total estimated gross income from all sources for such taxable year, his declaration may be filed on or before the 15th day of the month immediately following the close of such taxable year.

PAR. 7. Section 1.6153 is amended by revising subsection (b) of section 6153 and by adding a historical note. The amended provision reads as follows:

§ 1.6153 Statutory provisions; installment payments of estimated income tax by individuals.

SEC. 6153. *Installment payments of estimated income tax by individuals.* * * *

(b) *Farmers or fishermen.* If an individual referred to in section 6073(b) (relating to income from farming or fishing) makes a declaration of estimated tax after September 15 of the taxable year and on or before January 15 of the succeeding taxable year, the estimated tax shall be paid in full at the time of the filing of the declaration.

[Sec. 6153 as amended by sec. 1 (a)(3), (c), Act of Sept. 25, 1962 (Pub. Law 87-682, 76 Stat. 575)]

PAR. 8. Section 1.6153-1 is amended by revising paragraph (b) to read as follows:

§ 1.6153-1 Payment of estimated tax by individuals.

* * * * *

(b) *Farmers or fishermen.* Special provisions are made with respect to the filing of the declaration and the payment of the tax by an individual whose estimated gross income from farming or, with respect to taxable years beginning after December 31, 1962, from fishing is at least two-thirds of his total gross income from all sources for the taxable year. As to what constitutes income from farming or fishing within the meaning of this paragraph, see paragraph (b) of § 1.6073-1. The declaration of such an individual may be filed on or before January 15 of the succeeding taxable year in lieu of the time prescribed for individuals generally. Where such an individual makes a declaration of estimated tax after September 15 of the taxable year, the estimated tax shall be paid in full at the time of the filing of the declaration.

PAR. 9. Section 1.6654 is amended by revising subsection (b)(1) of section 6654 and so much of subparagraph (C) of subsection (d)(1) of section 6654 as precedes clause (i), and by adding a historical note. The amended provisions read as follows:

§ 1.6654 Statutory provisions; failure by individual to pay estimated income tax.

SEC. 6654. *Failure by individual to pay estimated income tax.* * * *

(b) Amount of underpayment. * * *

(1) The amount of the installment which would be required to be paid if the estimated tax were equal to 70 percent (66 $\frac{2}{3}$ percent in the case of individuals referred to in section 6073(b), relating to income from farming or fishing) of the tax shown on the return for the taxable year or, if no return was filed, 70 percent (66 $\frac{2}{3}$ percent in the case of individuals referred to in section 6073(b) relating to income from farming or fishing) of the tax for such year, over

PAR. 10. Section 1.6654-1 is amended by revising subparagraph (1) (i) of paragraph (a) and Example (1) in paragraph (c) to read as follows:

§ 1.6654-1 Addition to the tax in the case of an individual.

(a) In general. (1) * * *

(i) 70 percent (66 $\frac{2}{3}$ percent in the case of individuals referred to in section 6073(b), relating to income from farming or, with respect to taxable years beginning after December 31, 1962, from fishing) of the tax shown on the return for the taxable year, or if no return was filed, 70 percent (66 $\frac{2}{3}$ percent in the case of individuals referred to in section 6073(b), relating to income from farming or, with respect to taxable years beginning after December 31, 1962, from fishing) of the tax for such year, divided by the number of installment dates prescribed for such taxable year, over

(c) Examples. * * *

Example (1). An individual taxpayer files his return for the calendar year 1955 on April 15, 1956, showing a tax of \$40,000. He has paid a total of \$20,000 of estimated tax in four equal installments of \$5,000 on each of the four installment dates prescribed for such year. No other payments were made prior to the date the return was filed. Since the amount of each installment paid by the last date prescribed for payment thereof is less than one-quarter of 70 percent of the tax shown on the return, the addition to the tax is applicable in respect of the underpayment existing as of each installment date and is computed as follows:

(1) Amount of tax shown on return	\$40,000
(2) 70 percent of item (1)	28,000
(3) One-fourth of item (2)	7,000
(4) Deduct amount paid on each installment date	5,000
(5) Amount of underpayment for each installment date (item (3) minus item (4))	2,000

(6) Addition to the tax:

1st installment—period 4— 15-55 to 4-15-56	\$120
2d installment—period 6— 15-55 to 4-15-56	100
3d installment—period 9— 15-55 to 4-15-56	70
4th installment—period 1— 15-56 to 4-15-56	30
Total	320

PAR. 11. Section 1.6654-2 is amended by revising so much of subparagraph (3) of paragraph (a) as precedes subdivision (i). This amended provision reads as follows:

§ 1.6654-2 Exceptions to imposition of the addition to the tax in the case of individuals.

(a) In general. * * *

(3) The amount which would have been required to be paid on or before the date prescribed for payment if the estimated tax were an amount equal to 70 percent (66 $\frac{2}{3}$ percent in the case of individuals referred to in section 6073(b), relating to income from farming or, with respect to taxable years beginning after December 31, 1962, from fishing) of the tax computed by placing on an annual basis the taxable income for the calendar months in the taxable year preceding such date. The taxable income shall be placed on an annual basis by—

CIVIL AERONAUTICS BOARD

[14 CFR Part 297]

[Docket No. 14602]

INTERNATIONAL AIR FREIGHT FORWARDERS

Showing Required To Be Made for Obtaining Charters

JUNE 27, 1963.

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment of Part 297 of the Economic Regulations to explain the showing which must be made by an international air freight forwarder in support of an application for authority to charter aircraft for trips between points not constituting an authorized route of the direct air carrier which proposes to operate the charter, but is on an authorized route of another direct air carrier.

The principal features of the proposed regulation are explained in the Explanatory Statement below and the proposed amendment is set forth below. This amendment is proposed under the authority of sections 204(a), 101(3) and 102 of the Federal Aviation Act of 1958 (72 Stat. 743, 737, 740; 49 U.S.C. 1324, 1301, 1302).

Interested persons may participate in the proposed rule making through submission of ten (10) copies of written data, views or argument pertaining thereto, addressed to the Docket Sec-

tion, Civil Aeronautics Board, Washington 25, D.C. All relevant matter in communications received on or before Aug. 1, 1963 will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., upon receipt thereof.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

Explanatory statement. Part 297 of the Economic Regulations contains the provisions governing operating authority, and conditions and limitations thereon, of international air freight forwarders.

Section 297.23 sets forth the limitations on exemptions applicable to cargo charter trips over routes of a certificated carrier, and provides that the Board may grant specific authority for such charter operations upon a showing by the air freight forwarder that it would be a hardship upon it to use the scheduled services of other direct air carriers and that the authorization is required by the public interest.

A petition for charter authority under § 297.23 recently filed with the Board, in which "hardship" was alleged, was opposed by other air carriers providing scheduled services between the points involved, and the submissions of the parties demonstrated that the industry should be advised of the nature of the showing which must be made by a forwarder in support of such a petition, and of the construction which should be placed upon the term "hardship" as used in § 297.23(a)(2)(ii). The proposed new § 297.23(c) is designed to that end.

Amend § 297.23 of Part 297 of the Economic Regulations (14 CFR Part 297) as follows:

1. By supplying a heading for paragraph (a) to read: "Conditions on certain charters";

2. By supplying a heading for paragraph (b) to read: "Petitions for Board authority"; and

3. By adding a new paragraph (c) to read:

(c) Showing required by the forwarder. The Board will not grant petitions filed under paragraph (b) of this section unless the forwarder shows that the on-route carriers cannot or will not physically provide the service reasonably required. In the absence of special circumstances, one of the following situations must be shown to exist:

(1) The on-route carriers do not have equipment (used on the regular scheduled or charter service) which will accommodate the cargo because of its size, weight, or particular handling requirements, or

(2) The on-route carriers cannot or will not provide capacity (by the regular scheduled or charter service) reasonably related to the requirements for success-

ful movement of the cargo in terms of time of departure, or of arrival at destination.

FEDERAL AVIATION AGENCY

[14 CFR Part 71 [New]]

[Airspace Docket No. 63-SW-47]

TRANSITION AREA

Proposed Alteration

Notice is hereby given that the Federal Aviation Agency (FAA) is considering an amendment to § 71.181 of the Federal Aviation Regulations, the substance of which is stated below.

The Gallup, N. Mex., transition area is presently designated as that airspace extending upward from 1,200 feet above the surface within 10 miles south and 7 miles north of the 253° and 073° True bearings from McKinley County Airport, Gallup, N. Mex., extending from 20 miles west to 9 miles east of the airport, excluding the airspace within Federal airways.

The FAA, having completed a comprehensive review of the terminal airspace structure requirements in the Gallup area, including studies attendant to the implementation of the provisions of CAR Amendments 60-21/60-29, has under consideration the following airspace action:

Alter the Gallup transition area by redesignating it to comprise that airspace extending upward from 700 feet above the surface within an 8-mile radius of McKinley County Airport, Gallup, N. Mex. (latitude 35°30'35" N., longitude 108°47'00" W.); and that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at latitude 35°20'30" N., longitude 108°58'30" W., to latitude 35°31'30" N., longitude 109°02'30" W., to latitude 35°50'30" N., longitude 108°44'30" W., to latitude 35°47'30" N., longitude 108°34'00" W., to latitude 35°25'00" N., longitude 108°38'30" W., thence to the point of beginning. The floors of the airways which traverse the transition area proposed herein would automatically assume the floor of the transition area.

The proposed alteration of the Gallup transition area would lower the floor of controlled airspace within an 8-mile radius of the Gallup Airport from 1,200 to 700 feet to provide protection for aircraft executing prescribed instrument approach and departure procedures at the McKinley County Airport. The portion extending upward from 1,200 feet above the surface would provide protection for aircraft while holding at the Gallup radio beacon and for portions of the instrument approach and departure procedures conducted above 1,500 feet above the surface.

Certain minor revisions to prescribed instrument procedures would accompany the actions proposed herein, but operational complexities would not be increased nor would aircraft performance characteristics or established landing minimums be adversely affected.

Specific details of the changes to procedures and minimum instrument flight rules altitudes that would be required may be examined by contacting the Chief, Airspace Utilization Branch, Air Traffic Division, Southwest Region, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Southwest Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room A-103, 1711 New York Avenue NW, Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on June 26, 1963.

H. B. HELSTROM,
Acting Chief,
Airspace Utilization Division.

[Reg. Docket No. 1810]

HELIO

Proposed Airworthiness Directives

Amendment 442, 27 F.R. 4834 (AD 62-12-5), requires modification of the engine breather tube on Helio Models H-391B, H-395 and H-395A aircraft. Since the issuance of Amendment 442 there have been incidents of breather tube blockage by ice or snow which required relocation of the flute type opening in the engine breather tube. It is proposed therefore to supersede Amendment 442 with a new directive requiring the new modification of the engine breather tube prior to the next winter season.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the Federal Aviation

Agency, Office of the General Counsel: Attention Rules Docket, Room A-103, 1711 New York Avenue, N.W., Washington 25, D.C. All communications received on or before August 1, 1963, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 507.10(a) of Part 507 (14 CFR Part 507), by adding the following airworthiness directive:

HELIO. Applies to all Models H-391B, H-395 Serial Numbers 1 to 591 inclusive and H-395A Serial Numbers 1 to 1008 inclusive.

Compliance required prior to September 1, 1963.

To preclude possible loss of engine oil through the vacuum oil separator due to blockage of the engine breather tube with ice or snow, accomplish the following:

Modify the oil breather tube P/N 391-060-317 by slicing a flute cut 18 inches from contour of lower cowl 0.25 to 0.31 inch depth and 0.75 inch in height on aft side of tube. This cut can be added to the present breather tube.

(Helio Service Bulletin No. 30A dated April 20, 1963, covers this same subject.)

This supersedes Amendment 442, 27 F.R. 4834, AD 62-12-5.

Issued in Washington, D.C., on June 26, 1963.

W. LLOYD LANE,
Acting Director,
Flight Standards Service.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 31]

[Docket No. 15084]

AM STATION ASSIGNMENT STANDARDS AND THE RELATIONSHIP BETWEEN THE AM AND FM BROADCAST SERVICES

Order Extending Time for Filing Comments and Reply Comments

1. In a notice of proposed rule making released in the instant proceeding on May 17, 1963, the Commission invited comments to be filed not later than July 17, 1963, and reply comments not later than August 17, 1963.

2. On June 10, 1963, the Association on Broadcasting Standards, Inc., filed a "Motion for Extension of Time to File Comments and Reply Comments," asking that the due dates for comments and reply comments be extended to September 6, 1963, and October 1, 1963. On June 19, 1963, a similar petition was filed by

the National Association of FM Broadcasters, requesting that the date for comments be extended to November 1, 1963, and that the date for replies be extended until December 1 1963.

3. In support of its request, the Association on Broadcasting Standards, Inc. notes its involvement in several other current rule making proceedings, including those pertaining to pre-sunrise operation of standard broadcast stations (Docket 14419), the broadcasting of horse racing information (Docket 15040), and advertising standards (Docket 15083). The Association states that it will be unable to devote the "full and concentrated attention" merited by the instant proceeding if comments must be filed by July 17, 1963.

4. The National Association of FM Broadcasters states that it will be unable to undertake a comprehensive study of the proposed new rules as they affect its members by the designated date for comments. In order to complete its projected studies and coordinate policies and

positions among its widely scattered members, the FM association requests a three and one half month extension of time.

5. We are of the opinion that the requests for extension have merit and that an extension of time should be granted in order to permit the industry to supply the Commission with meaningful material that will be helpful in its deliberations concerning the subject matter of this proceeding. However, because we wish to bring this proceeding to a prompt conclusion and eliminate the current "freeze" on most applications for new and changed AM facilities, we do not feel an extension as long as that requested by the National Association of FM Broadcasters is justified. We believe that sufficient time will be allowed for the preparation of meaningful comments if the due date for comments is extended from July 17, 1963, to September 16, 1963, with a corresponding extension of the reply comment filing date from August 17, 1963 to October 16, 1963. We do not

contemplate further extensions of time in this proceeding.

6. In view of the foregoing: *It is ordered*, This 27th day of June 1963, that the time for filing comments in this proceeding is extended from July 17, 1963, to September 16, 1963, and the time for filing reply comments is extended from August 17, 1963, to October 16, 1963; and that the aforementioned requests for extension of time are granted to the extent indicated herein and are denied in all other respects.

7. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.241(d)(8) of the Commission's rules.

Released: June 27, 1963.

COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

The Bureau of Reclamation, United States Department of the Interior, has filed an application, serial number Wyoming 0256627, for the withdrawal of lands described below, from all forms of appropriation under the first form of withdrawal as provided by section 3 of the Act of June 17, 1902 (32 Stat. 388), subject to valid existing rights.

The applicant desires the lands for reclamation purposes in connection with the development of the Frannie Division, Shoshone Project.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the State Director, Bureau of Land Management, Department of the Interior, P.O. Box 929, Cheyenne, Wyoming.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 57 N., R. 97 W.,
Sec. 8: SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$.

Containing 80 acres.

THOMAS H. FLOYD, Jr.,
Acting State Director.

DEPARTMENT OF COMMERCE

Bureau of International Commerce

[Case No. 318]

WOLFGANG FISCHER

Order Denying Export Privileges

In the matter of Wolfgang Fischer, Breslauer Strasse 33, Garstedt, Bez. Hamburg, Federal Republic of Germany, respondent; Case No. 318.

By letter dated December 31, 1962, the Export Control Investigations Division, Bureau of International Commerce¹

¹ By Order No. 182 of the Department of Commerce, effective February 1, 1963, the functions of the Bureau of International Programs were transferred to the Bureau of International Commerce. The functions formerly performed by the Export Control Investigations Staff are now performed by the Export Control Investigations Division. The above order provides that all outstanding

(formerly Export Control Investigations Staff, Bureau of International Programs) charged the above named respondent with violations of the Export Control Act of 1949, as amended, and regulations thereunder. A copy of the charging letter was served on respondent, and he filed an answer thereto.

In accordance with the usual practice the case was referred to the Compliance Commissioner who considered the pleadings and evidence, and he has submitted to the undersigned his written report including findings of fact, conclusions that violations have occurred, and recommendations as to the remedial action that should be taken against the respondent. The Compliance Commissioner has also submitted the record in the case, which I have considered, and on the basis of which I hereby make the following findings of fact:

1. The respondent Wolfgang Fischer is a resident of Hamburg, Federal Republic of Germany. He was co-owner of the partnership known as Fischer & Hutter, K.G., also located in Hamburg, which firm was engaged in the import-export business dealing primarily in automobiles and automotive spare parts. This firm is no longer in business. Commencing in 1959, the respondent on behalf of Fischer & Hutter, K.G., had business dealings with the firm known as Kesco, G.m.b.H.

2. By order dated October 4, 1956, and published in the FEDERAL REGISTER on October 9, 1956 (21 F.R. 7699) Kesco, G.m.b.H., Hans Kessler, Sr., and Hans Kessler, Jr., all of Frankfurt, Germany, were denied all U.S. export privileges for the duration of export controls. The order prohibited these parties from participating, directly or indirectly, in any manner, in any transaction involving commodities exported or to be exported from the United States. The order also prohibited any other person or firm from participating with Kesco in any transaction involving an exportation from the United States wherein Kesco might have any interest or obtain any benefit, direct or indirect.

3. On March 6, 1961, the respondent was notified by an official of the U.S. Consulate General in Hamburg that Kesco had been denied all U.S. export privileges and that under the terms of the order the respondent could not engage in any business transaction with Kesco involving goods of U.S. origin. After the respondent was so notified, he continued to engage in business transactions with Kesco involving U.S. origin commodities without authorization from the United States Government.

4. By letter dated November 18, 1960, and confirmed by letter dated December 13, 1960, the respondent ordered from a manufacturer in the United States certain electronic testing instruments and accessories valued at \$3,774. Said

rules, regulations, orders and other forms of administrative action shall remain in full force and effect until amended or revoked. Reference herein to any branch of the Department of Commerce under its present design shall, where appropriate, apply to and include its predecessor.

commodities were of a strategic nature and were on the U.S. Positive List.

5. The respondent knew that a validated U.S. export license was required to export these commodities from the United States. These commodities were subject to the Import Certificate/Delivery Verification Procedure under § 373.2 of the Export Regulations. To support an export license application by the U.S. exporter, the respondent applied to the authorities of the Federal Republic of Germany for an Import Certificate and he described the commodities as replacement (or spare parts) and components (or parts) for radios and television receivers. This description of the commodities was false. Acting on respondent's representations, the West German licensing authorities issued to the respondent on December 16, 1960 an Import Certificate describing the commodities as represented by the respondent.

6. The respondent transmitted said Import Certificate to the U.S. exporter to be submitted with his application for export license. The exporter filed such application on December 22, 1960 and it was rejected thereby preventing the exportation of the commodities.

7. On April 19, 1961, an official of the United States Consulate General in Hamburg requested respondent to identify the end-users of the instruments and equipment involved in this transaction. The respondent told the official that the goods were for an individual, whom he named, located in Argentina; that said individual was Fischer & Hutter's representative; and that said individual had requested the respondent to procure the commodities for customers in Argentina. These statements and representations by respondent were false.

On the foregoing findings of fact I have made the following conclusions:

The respondent: (a) without prior disclosure of the facts to and specific authorization from the Bureau of International Programs (predecessor of the Bureau of International Commerce) with knowledge that Kesco G.m.b.H. was subject to an order denying export privileges participated with said firm in business transactions involving commodities exported or to be exported from the United States; (b) made false and misleading representations and statements to, and concealed material facts from, the Office of Export Control and officials of the U.S. Government in the course of an investigation instituted under the authority of the Export Control Act of 1949, as amended; (c) made and caused to be made false and misleading representations and statements to the Office of Export Control through a U.S. exporter and the Government of the Federal Republic of Germany, in connection with the issuance, submission, and use of an export control document, to wit, an Import Certificate, and for the purpose of effecting an exportation from the United States; all in contravention of §§ 381.2, 381.4, 381.5, and 381.10 of the Export Regulations.

Concerning the defenses raised by respondent the Compliance Commissioner said, in part:

The respondent contends that the restrictions in the denial order against Kesco prohibiting others from dealing with it in matters relating to U.S. exports were not applicable to him, and being a citizen of the Federal Republic of Germany he can do business with any German firm he cares to so long as he does not violate the laws of his country. He further contends that he is responsible to German authorities only and so long as his business is not illegal under German laws the U.S. authorities have no right to tell him with whom he may do business.

These contentions have frequently been made in the past and we have consistently rejected them. We are not attempting to exercise extra-territorial jurisdiction over non-resident nationals, but we are simply enforcing restrictions which we have placed on goods exported from the United States. Our controls are attached to and related to the goods, and follow them wherever they go. We are required to take whatever action is necessary to achieve effective enforcement of the Export Control Act. If we find that practices, such as respondent engaged in, will obstruct, defeat, or interfere with the effective enforcement of the law, we are required to take steps to stop such practices.

As to the remedial action that should be taken against the respondent, the Compliance Commissioner said:

In compliance proceedings, such as these, we have no authority to impose fines or otherwise penalize violators of our regulations. The only sanctions we can impose are revocation of outstanding validated export licenses, denial of export privileges, and exclusion from practice before BIC. Denial of export privileges includes the denial of the right to deal in any manner with exportations from the U.S. The purpose of such sanctions is to bring about adherence to the law and to act as a deterrent for future violations.

The respondent has a misconception as to extent of the authority of this Government to control exports from this country. He will learn, if he does not already know, that under the provisions of the denial order against him, manufacturers and exporters in the United States, their agents in foreign countries, and others who recognize the authority of our regulations, will not deal with him in commodities of U.S. origin. I do not believe that the respondent is incorrigible, and denial of export privileges for a period of time may have the salutary effect we desire. If this result is accomplished, in the future he may be able to prove his trustworthiness to deal in U.S. exports, and I am of the view that he should be given an opportunity to do so. I, therefore, recommend that this respondent be denied export privileges for the duration, with the proviso that two years after the date of the order he may apply to have the effective denial of privileges held in abeyance while he remains on probation.

The entire record has been considered and also the recommendations of the Compliance Commissioner. I have concluded that the recommendations are fair and just, and designed to achieve effective enforcement of the law. Accordingly, it is hereby ordered:

I. All outstanding validated export licenses in which respondent appears or participates in any manner or capacity are hereby revoked and shall be returned forthwith to the Bureau of International Commerce for cancellation.

II. So long as export controls shall be in effect, the respondent is hereby denied all privileges of participating, directly or

indirectly, in any manner or capacity, in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing denial of export privileges, participation in any exportation is deemed to include and prohibit participation by respondent, directly or indirectly, in any manner or capacity (a) as a party or as a representative of a party to any validated export license application, or documents to be submitted therewith, (b) in the preparation or filing of any export license application or of any documents to be submitted therewith, (c) in the obtaining or using of any validated or general export license or other export control document, (d) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities or technical data, in whole or in part exported or to be exported from the United States, and (e) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

III. Such denial of export privileges shall extend not only to the respondent, but also to any person, firm, corporation, or business organization with which he now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith.

IV. Two years after the date hereof the respondent may apply to have the effective denial of his export privileges held in abeyance while he remains on probation. Such application shall be supported by evidence showing compliance with the terms of this order and such disclosure of details of his activities relating to import and export transactions during said two years as may be necessary to determine his compliance with this order. The application will be considered on its merits and in the light of conditions and policies existing at that time. His export privileges may be restored under such terms and conditions as appear to be appropriate.

V. During the time when the respondent or any related party is prohibited from engaging in any activity within the scope of Part II hereof, no person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with said respondent or any related party, or whereby said respondent or such related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any such respondent or related party denied ex-

port privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

In re application of Progress Broadcasting Corporation (WHOM), New York, New York, Docket No. 14611, File No. BP-13915; for construction permit.

The Hearing Examiner having under consideration petition filed June 14, 1963 on behalf of Progress Broadcasting Corporation (WHOM), requesting a postponement of the date for exchange of exhibits and commencement of hearing, along with opposition thereto filed June 24, 1963 on behalf of the Commission's Broadcast Bureau, and opposition filed June 24, 1963 on behalf of K & M Publishing Company, Inc.;

It appearing, that petitioner pleads that circumstances surrounding the possibilities of the condemnation of its transmitter site by New Jersey authorities continue to prevail as outlined in Memorandum Opinion and Order of the Hearing Examiner (FCC 63M-87), released January 17, 1963, and as embodied in the Review Board's Memorandum Opinion and Order (FCC 63R-124), released March 14, 1963;

It further appearing, that petitioner requests an indefinite postponement of the date for the exchange of exhibits, which is now scheduled for June 28, 1963; and a postponement of the hearing, now scheduled for September 18, 1963;

It further appearing, that good cause does not exist why the exchange date for exhibits and the hearing date should be continued indefinitely, but it is deemed appropriate and reasonable to extend the date for exchange of exhibits and the commencement of the hearing beyond the dates now scheduled:

Accordingly, it is ordered, This 25th day of June 1963, that the petition is granted in part and denied in part:

It is further ordered, That the exchange of exhibits shall be accomplished on or before October 7, 1963, in lieu of June 28, 1963, and the hearing now scheduled for September 18, 1963, be and the same is hereby rescheduled for November 12, 1963, 10:00 a.m., in the Commission's Offices, Washington, D.C.:

It is further ordered, That the petitioner's request for oral argument is dismissed as moot.

Released: June 26, 1963.

1360 BROADCASTING CO., INC. (WEBB)

Memorandum Opinion and Order Amending Issues

In re application of 1360 Broadcasting Co., Inc. (WEBB), Baltimore, Maryland, Docket No. 14906, File No. BP-14767; for construction permit.

1. The Review Board has before it a petition to enlarge issues in the above-entitled proceeding,¹ filed by Belvedere Broadcasting Corporation (WWIN), hereinafter called petitioner. Petitioner requests that the Board add issues to determine whether the subject applicant is financially qualified and to determine whether the site proposed by applicant is reasonably available.

2. The subject application was filed with the Commission on March 31, 1961. It proposes a change in the operation of Station WEBB, presently operating on a frequency of 1360 kilocycles with a power of 5 kilowatts, daytime hours, to an unlimited time operation on the same frequency with daytime power of 5 kilowatts and nighttime power of 1 kilowatt (DA-2). By Memorandum Opinion and Order (FCC 63-21), released January 7, 1963, this application was designated for hearing, and the designation order was published in the FEDERAL REGISTER on January 10, 1963 (28 F.R. 288). The Commission made petitioner a party to

this proceeding on the ground that a grant of the subject application might cause a loss or deterioration of petitioner's service.

3. The applicant, WEBB, sets forth in the application that the cost of construction is proposed to be \$34,880.55; that this cost will be financed by a deferred payment arrangement of \$20,327.06 from RCA, and \$20,000 out of "profits from existing operations"; that the cost of the operation for the first year will be "part of present operation"; and the revenue from the first year's operation will be "part of present operation." The applicant's balance sheet shows current assets of \$91,421.86; consisting of cash \$12,384.13, accounts and notes receivable, less bad debt reserve, of \$76,876.31; and prepaid expense \$2,161.42. The applicant's current liabilities total \$58,120.06. The net profits after Federal taxes in 1959 were \$16,088 and in 1960 were \$10,046. Applicant also shows that the land required to construct and operate its proposal will be leased.

Petition. 4. The petitioner admits that its petition is untimely, but urges that good cause for late filing is shown because it has engaged a new counsel, who " * * * has only now fully acquainted himself with the facts of the instant proceeding." Petitioner urges that the Board should add the requested issues on its own motion in the event that it is determined that its petition must be denied as untimely. Petitioner further alleges that the Commission has never made a determination respecting the financial qualifications of the applicant, because this finding is not set forth in the Memorandum Opinion and Order of designation; that such a finding is a statutory requirement; that applicant has never provided the Commission with enough information to make a determination respecting its financial qualifications; that the applicant has never made a proper showing respecting the additional expense for operating its proposal; that applicant would incur additional expenses in its new full-time (24 hour) operation which it does not now incur in its present daytime only service. Specifically, petitioner alleges that the presently proposed transmitter site consisting of 10 acres in the City of Baltimore is valuable property and could be expected to rent for \$22,000 to \$35,000 per year; and that the payroll would have to be increased because of full-time operation.

5. Petitioner points out that it had raised a question, in a prior pleading, relative to the availability of the original transmitter site proposed in the application; that this question was rendered moot when the applicant acquired another site which was appropriately zoned for the applicant's proposed transmitter. Petitioner now contends that the applicant has not provided the Commission with sufficient information relative to its newly proposed site; that, while the applicant has filed an "Agreement to Lease," dated October 14, 1962, covering the site, the term and rental of the lease are not set out in the "Agreement." Petitioner further points out that although the Agreement shows that the proposed lease was reduced to writ-

ing and placed in escrow, a copy of the lease was not filed with the Commission; therefore, the Commission still does not know the term, the rental or any other provision of the lease, or whether the applicant can meet the terms of the lease. Petitioner alleges that this information is particularly significant since the applicant did not inform the Commission that its originally proposed site was not and could not be zoned to meet the purposes of the applicant. Petitioner alleges, with reference to applicant's first proposed site, that the matter of site zoning was first brought to the attention of the Commission by the respondent in February, 1962; that the final judgment of the Baltimore City Court denying applicant's appeal from an earlier adverse ruling was entered March 27, 1962; and that the applicant never apprised the Commission of its zoning problems until the Commission directed an inquiry into this matter in September, 1962.

6. In opposing the petition, the applicant contends that the petition is not timely filed in compliance with § 1.141(b) of the Commission's rules and must be denied; that petitioner was represented by counsel prior to the Commission's Order of Designation and the fact that applicant has changed counsel is not good cause per se for late filing. Applicant argues that there is no merit to petitioner's request for a financial issue; that petitioner's estimates regarding the rental costs of the proposed transmitter site and the substantial additional operating costs for payroll, carrying costs, etc., are wild and speculative. Attached to its opposition was an affidavit by Samuel E. Feldman, Vice President and General Manager, in which he said: " * * * I believe the additional costs of operating Radio Station WEBB full time would not exceed \$35,000 annually over and above the present operating costs." With respect to the site availability issue, applicant contends that the Commission was aware of all of the facts regarding this matter when it refused to add a site availability issue in the Order of Designation.

7. The Review Board has considered the instant petition and finds that it was not timely filed in accordance with § 1.141(b) of the Commission's rules and that good cause for late filing has not been shown. It will, therefore, be denied.

8. The Board's analysis of the applicant's financial proposal indicates that the estimated cost of construction is \$34,880, and that a new transmitter site for nighttime operation is proposed to be leased. The applicant proposes to continue to operate during daytime from its present location and during nighttime from another location. The applicant relies on a deferred credit agreement in the amount of \$20,327 and profits from existing operations of \$20,000. The applicant's balance sheet as of December 31, 1960 shows total assets of \$91,421, comprised of Cash—\$12,384, Accounts Receivable and Notes Receivable, less reserve for bad debts—\$76,876 and prepaid expenses—\$2,161. Current liabilities are shown as \$58,120 indicating a net current asset position of \$33,301. However, by combining the

¹ Under consideration are: (1) A petition to enlarge issues, filed March 7, 1963, by Belvedere Broadcasting Corporation; (2) errata to petition to enlarge issues, filed March 11, 1963, by Belvedere Broadcasting Corporation; (3) Broadcast Bureau's opposition to the petition to enlarge issues, filed March 18, 1963; (4) opposition to the petition to enlarge issues, filed March 20, 1963, by 1360 Broadcasting Co., Inc.; and (5) reply to opposition, filed April 1, 1963, by Belvedere.

item of accounts receivable with the item of notes receivable in one total amount on the balance sheet, the applicant has beclouded its current position and made it indeterminate. For example, the applicant fails to indicate by whom the notes receivable are owed or whether they lend themselves to conversion into cash to be used by the applicant in its proposed construction and operation. Except for the showing of cash in the amount of \$12,384, there is no other reliable source of funds indicated by the applicant. Such funds, added to the \$20,327 covered by a deferred credit agreement on equipment are short by \$2,069 in meeting the applicant's estimated cost of construction.

9. It was not until after the filing of the instant petition, in which the applicant's financial qualifications were questioned, that the applicant indicated that its cost of operation would be increased. This was a golden opportunity for the applicant to remove the nebulous aspects of its financial proposal and sustain its burden of proof by spelling out its estimates of increased costs of operation and how such increased costs were proposed to be met. It is no answer for the applicant to charge that the petitioner's estimates were "indeed wild," when the applicant had never given any estimates of its own. The applicant states that the terms of the rental agreement have been reduced to writing and filed in escrow; however, upon challenge by the petitioner, the applicant did not state what the rental and/or the terms of the agreement were. Instead, the applicant submits an affidavit by the Vice President and General Manager who states that "I believe the additional costs of operating Station WEBB full time would not exceed \$35,000 annually over and above the present operating costs"; and that he feels assured that the additional revenue will exceed additional expense. No showing is made, however, as to how it is proposed to finance these additional operating costs within the first three months of operation before revenues from the nighttime operation may reasonably be anticipated. Such additional costs within the first three months of nighttime operation cast additional doubt upon the applicant's qualifications to effectuate its nighttime proposal.²

10. The latest balance sheet of the applicant before the Commission is dated December 30, 1960. Applicant relies on the showing therein of its net current asset position, which consists of accounts and notes receivable and payable within the next twelve months or less, following December 31, 1960 (i.e., up to December 31, 1961). In view of the fluidity of such balance sheet items, and the failure of

applicant to submit an up-to-date balance sheet, we have no evidence that these items have remained static in the intervening 2½ years. These facts could have been established by the submission of an up-dated balance sheet. Such an action seems more desirable since the applicant's financial qualifications have been brought into question. As the Commission said in its notice of proposed rule making in Docket No. 14867 (FCC 62-1247, released November 30, 1962), Pike & Fischer RR 51:xxvii, it is well established Commission policy that an applicant is responsible for the continuing accuracy and completeness of representations made to the Commission on matters of decisional significance.

11. Having considered the factual situation as developed by the arguments advanced by the petitioner, the responses thereto and our analysis of the applicant's financial proposal at this time, the Review Board is of the view that addition of a financial issue on its own motion is warranted. The addition of the requested site availability issue is not warranted on the basis of the allegations made by the petitioner. The petitioner does not question the ownership of the site by the lessor, nor does it question the willingness of the lessor to lease the site to the applicant. As we read the petition, petitioner is principally concerned with the amount of the rental, which, in turn, has a bearing upon the applicant's costs and its ability to finance these costs. Under the financial qualifications issue which is being added, the petitioner may, at the hearing, adduce evidence concerning the sufficiency of the applicant's funds to effectuate its proposal, which includes, of course, the rental of the site. See Triangle Publications, Inc., 21 RR 187, FCC 61-99 (1961).

Accordingly, it is ordered, This 24th day of June 1963, that the petition to enlarge issues, filed on March 7, 1963, by Belvedere Broadcasting Corporation is denied:

And it is further ordered, That the issues in this proceeding are enlarged by the addition of the following issue: To determine whether 1360 Broadcasting Co., Inc., is financially qualified to construct and operate the proposed station.

Released: June 26, 1963.

ALLOCATION OF FREQUENCY BANDS FOR SPACE COMMUNICATIONS AND RADIO ASTRONOMY

Report and Order Regarding Inquiry

1. The International Telecommunication Union (ITU) convened an Administrative Radio Conference in Geneva, Switzerland on August 17, 1959, which

³ Board Member Nelson concurring in result.

concluded its work on December 21, 1959. Among other things, the Conference adopted Recommendation No. 36 relating to the convening of an Extraordinary Administrative Radio Conference (EARC) to allocate frequency bands for space radiocommunication purposes. It has since been agreed that the EARC will convene on October 7, 1963, in Geneva.

2. In anticipation of the Space EARC, the Commission instituted an Inquiry in Docket No. 13522 on May 18, 1960. The initial notice of inquiry was designed to elicit information relative to the frequency needs of a comprehensive space radiocommunication program for the foreseeable future. Concurrently, a similar program was carried out by the Interdepartment Radio Advisory Committee (IRAC) on behalf of the Office of Emergency Planning (OEP) to determine the total government requirement in this regard. The Commission, in collaboration with OEP/IRAC, subsequently developed a mutually agreed document intended to portray the consensus of those responding to the inquiries.

3. The second notice of inquiry in Docket No. 13522, adopted by the Commission on May 17, 1961, called for comments to be filed with the Commission on or before June 23, 1961. After reviewing those comments and consulting with the OEP and IRAC, the Commission and the OEP recommended to the Department of State that the "Preliminary Views of the United States of America—Frequency Allocations for Space Radiocommunication" be distributed abroad to other administrations so that their views and comments could be taken into account in future planning.

4. The third, and last, notice of inquiry in Docket No. 13522 was adopted on October 24, 1962. Attached thereto were the "Draft Proposals of the United States of America for the Extraordinary Administrative Radio Conference for Space Radiocommunication (Geneva, 1963)." The latter document, also developed in consultation with OEP and IRAC, constituted a further refinement of the earlier "Preliminary Views" and took into consideration public comment in response to the notice as well as comments received from a number of countries through correspondence and international meetings and discussions. Also taken into consideration were the results of technical studies conducted within Study Group IV of the International Radio Consultative Committee (CCIR), looking toward a determination of the preferred technical characteristics for space systems. The draft proposals were also the subject of numerous bi-lateral and multi-lateral discussions with other administrations, both before and after the Xth Plenary Assembly of the CCIR, Geneva, January-February 1963, at which numerous important technical reports and recommendations relating to space radiocommunication and radio astronomy were adopted.

5. At the time Recommendation No. 36 (Geneva, 1959) was adopted, it was not intended that the radio astronomy service be included as an item for discussion at the tentatively scheduled Space EARC. Subsequent to the Administrative Radio Conference, however, the

² In this connection, it should be noted that the change in facilities here proposed is distinguishable from cases in which only a change in power or in frequency is proposed. The applicant in this proceeding is proposing to add a nighttime operation to its present daytime operation, and such change involves additional operating costs (e.g., engineers, announcers, etc.) not encountered in power increases or in change in frequency proposals.

United States as well as many other administrations came to the conclusion that radio astronomy was an appropriate subject for discussion because of its close relationship to the over-all space program.

6. In the hope that the matter of frequency allocations for the radio astronomy service would be added to the Space EARC agenda, the Commission in collaboration with OEP and IRAC undertook the preparation of draft proposals to amend the Radio Regulations to improve the international allocation status of radio astronomy in much the same fashion as had been done for space radiocommunication. The results of that preparatory work were incorporated in the Commission's notice of inquiry in Docket No. 14477, adopted January 3, 1962, in an attachment entitled "Preliminary Views of the United States of America—Frequency Allocations for Radio Astronomy".

7. For the most part, the preliminary views were favorably received nationally by those commenting in response to the Commission's inquiry. The only exceptions dealt with the proposed deletion of ISM at 40.68 Mc/s, the substitution of 328.6–335.4 Mc/s as a replacement for 404–406 Mc/s and the absence of any proposals for radio astronomy in the vicinity of 150 and 600 Mc/s. As in the case of space radiocommunication proposals, the preliminary views on radio astronomy were the subject of bi-lateral and multi-lateral discussions with a number of other administrations. Additionally, discussions were held with representative groups of radio astronomers.

8. As a result of the above, the preliminary views on radio astronomy have been modified in four respects. No change is now proposed below 73 Mc/s insofar as the existing Radio Regulations are concerned. In other words, it is no longer proposed that ISM be deleted at 40.68 Mc/s in favor of radio astronomy, nor was it possible to devise an alternative international proposal to accommodate radio astronomy in the vicinity of 40 Mc/s. The original proposal to allocate 73–74.6 Mc/s exclusively to radio astronomy on a world-wide basis has been modified to suggest an exclusive allocation only in ITU Region 2 (the Americas). The proposed allocation of 328.6–335.4 Mc/s has been withdrawn and replaced by a proposal to share the band 404–406 Mc/s on a world-wide basis between the meteorological aids service on a primary basis and the radio astronomy service on a secondary basis. The proposed allocation of 88–90 Gc/s has been deleted. As in the preliminary views, no proposal has been made for radio astronomy at 150 or 600 Mc/s.

9. Inasmuch as radio astronomy has since been added to the agenda of the Space EARC, the attached document¹ now constitutes the combined space radiocommunication and radio astron-

omy proposals of the United States. Like the previously-mentioned documents, it represents the joint efforts of the Commission and the Office of Emergency Planning and is based on the factors discussed above. In response to similar recommendations by the Commission and the OEP, the Department of State approved the document and on June 1, 1963, transmitted it to the Secretary-General of the ITU as the formal proposals of the United States for consideration at the Space EARC to be convened in Geneva, Switzerland on October 7, 1963. Pursuant to established procedures, these proposals and those of other countries will be published in English, French and Spanish and distributed to all member countries of the ITU.

10. It should be noted that the attached proposals will be subject to negotiation at the EARC and may be modified in some respects by the United States either prior to or at the conference itself, if conditions warrant. Following the conference, and upon ratification by the United States, rule-making procedures will be instituted by the Commission to implement the decisions of the conference, to the extent practicable in the national interest.

11. In view of all of the foregoing, and the fact that the proceedings in these Notices of Inquiry have now served the purposes for which they were instituted as described above: *It is ordered*, That the proceedings in Dockets No. 13522 and 14477 are terminated herewith.

Adopted: June 19, 1963.

Released: June 25, 1963.

FEDERAL MARITIME COMMISSION

[Docket No. 1114]

FIRST SUPPLEMENTAL ORDER; IRON AND STEEL RATES BETWEEN UNITED STATES, EUROPE AND JAPAN

Expansion of Investigation

By order dated May 27, 1963, the Commission instituted an investigation and hearing to determine whether freight rates on iron and steel items in certain trades may be in violation of provisions of the Shipping Act 1916.

In addition to the trades identified in such order, information before the Commission indicates that the same conditions exist in the trade between United States Pacific Coast ports and Australia, as are stated to exist in the trades presently set forth in the original order in this proceeding.

² Commissioners Bartley, Ford and Loevinger absent.

Therefore, it is ordered, That this investigation and hearing be expanded to determine whether freight rates on iron and steel items, set forth in the freight tariffs of the member lines of the conferences specified in Appendix 1 below and made a part hereof, and set forth in the tariffs of the individual common carriers by water named in Appendix 2 below and made a part hereof, violate sections 15 and/or 17 of the Shipping Act 1916, and/or should be disapproved under the provisions of sections 17 or 18b (5) of the Shipping Act 1916, and whether any of the conference agreements of the carriers listed in Appendix 1 should be disapproved under section 15 of the Shipping Act 1916: *And it is further ordered*, That the parties specified in Appendices 1 and 2 below be made respondent in this proceeding: *And it is further ordered*, That notice of this Supplemental Order No. 1 be published in the FEDERAL REGISTER, and that a copy thereof and notice of hearing be served upon the respondents specified in Appendices 1 and 2 below as well as upon all other respondents to this proceeding.

[Docket No. CP63-97]

ALGONQUIN GAS TRANSMISSION CO.

Notice of Application To Amend

JUNE 24, 1963.

Take notice that on April 11, 1963, Algonquin Gas Transmission Company (Applicant), 25 Faneuil Hall Square, Boston 9, Massachusetts, filed in Docket No. CP63-97 an application to amend the Commission's order, issued March 18, 1963, in the subject docket to authorize the sale of additional maximum daily quantities of natural gas to ten of Applicant's existing customers, all as more fully set forth in the application to amend on file with the Commission and open to public inspection.

The subject order authorized, among other things, Applicant to construct and operate certain facilities and to sell and deliver additional maximum daily quantities of natural gas to certain of Applicant's customers.

Applicant states that as a result of the extreme cold weather experienced during the past winter, ten of its existing customers have re-evaluated their requirements and in order to prevent a critical deficiency of supply, have requested additional quantities of firm gas under Applicant's F-1 Rate Schedule commencing November 1, 1963. The requests for additional gas, totaling 5,460 Mcf at 14.73 psia, are as follows:

Customer	Presently authorized F-1 MDQ	Additional F-1 MDQ requested	Proposed F-1 MDQ
Bristol & Warren Gas Co.	1,400	100	1,500
Brookton Taunton Gas Co.	18,700	978	19,678
The Connecticut Gas Co.	29,000	1,000	30,000
Fall River Gas Co.	12,500	500	13,000
The Hartford Gas Co.	23,200	800	24,000
New Bedford Gas & Edison Light Co.	15,870	630	16,500
The Newport Gas Light Co.	2,800	400	3,200

On January 29, 1963, Jonnell Gas, Incorporated, Federal Center, San Antonio 9, Texas, filed with the Federal Power Commission, under Docket No. CI63-925, pursuant to section 7(c) of the Natural Gas Act and as an independent producer, an application for a certificate of public convenience and necessity authorizing the sale to Tennessee Gas Transmission Company (Tennessee), Houston, Texas, at 16.0 cents per Mcf at 14.65 psia, of natural gas produced in the South Escobas (Wilcox) field area in Zapata County, Texas in Railroad Commission District No. 4.

The issues in this case are related to those in Jonnell Gas, Incorporated, Docket No. CI60-323. By notice issued May 24, 1963, the proceedings in the latter case were consolidated with those of several other cases and a public hearing on the issues presented was set to commence on July 29, 1963. The proper administration of the Natural Gas Act requires that the proceedings under Docket No. CI63-925 be, and they hereby are, consolidated with the proceedings in the aforesaid other cases.

A public hearing on the issues presented by the applications in all of said cases will be held in a hearing room of the Federal Power Commission, 441 G Street NW., Washington 25, D.C., commencing July 29, 1963, at 10 a.m.

Notices and petitions to intervene and protests may be filed with the Commission pursuant to §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before July 17, 1963. Interveners in said other cases will be interveners in Docket No. CI63-925 also without further filing.

JUNE 24, 1963.

Take notice that on May 9, 1963, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 296, Houston 1, Texas, filed in Docket No. CP63-299 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a sales meter station and appurtenant equipment on Applicant's 36-inch transmission line, Louisa County, Virginia, and to utilize said stations as an additional delivery point for natural gas service to Lynchburg Gas Company (Lynchburg Gas), an existing customer for resale, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application indicates that Lynchburg Gas has requested the proposed new delivery point in order that natural gas service may be rendered to the Town of Gordonsville, Virginia (Gordonsville) and an industrial plant of Gordonsville Industries, Inc. (Industries). Deliveries of natural gas are proposed to be made into the facilities of Lynchburg Pipe Line Company (Lynchburg Pipe), a wholly-owned subsidiary of Lynchburg Gas. Lynchburg Pipe will purchase said gas from Lynchburg Gas for resale to Gordonsville and Industries.

The natural gas requirements for the proposed service are:

	Maximum daily volumes (Mcf)	Annual volumes (Mcf)
Industries-interruptible	200	40,000
Industries-firm	10	
Gordonsville	160	24,000
Total	370	64,000

The application indicates further that Lynchburg Pipe, itself or through its parent, Lynchburg Gas, will construct and operate all facilities between the proposed sales meter station and Gordonsville and Industries.

Applicant's proposed facilities are estimated to cost approximately \$12,500, which cost will be initially financed from general funds. Lynchburg Gas will reimburse Applicant in full for the entire cost of facilities.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 30, 1963, at 9:30 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however, That the Commission*

may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 19, 1963. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

FOREIGN-TRADE ZONES BOARD

[Order No. 58]

TOLEDO-LUCAS COUNTY PORT AUTHORITY

Application To Reduce the Boundary of Foreign-Trade Zone No. 8

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998-1003; 19 U.S.C. 81a-81u), the Foreign-Trade Zones Board has adopted the following order which is promulgated for the information and guidance of all concerned:

Whereas, the Toledo-Lucas County Port Authority, as Grantee of Foreign-Trade Zone No. 8 at Toledo, Ohio, filed an application dated April 15, 1963 for permission to withdraw from the original zone boundary approximately 12,000 square feet. The portion withdrawn is to be used for the Ohio State Liquor Outlet in connection with their distribution of imported liquor. The foreign-trade zone will be used in the storage of this liquor.

Now, Therefore, the Foreign-Trade Zones Board, after full consideration and a finding that the proposal is in the public interest, hereby orders:

That the boundaries of Foreign-Trade Zone No. 8 be, and they are hereby re-established, as shown in Exhibit No. 10 (b), dated April 25, 1963.

It is found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (5 U.S.C. 1003) is unnecessary in connection with the issuance of this order. Its application is restricted to one Foreign-Trade Zone and is of a nature that it imposes no burden on the parties of interest. The effective date of this order, is, therefore, upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., this 25th day of June 1963.

Foreign-Trade Zones Board.

[SEAL] LUTHER H. HODGES,
Secretary of Commerce, Chair-
man and Executive Officer,
Foreign-Trade Zones Board.

Attest:

RICHARD H. LAKE,
Executive Secretary,
Foreign-Trade Zones Board.

WAREHOUSE FACILITIES WITHIN EX- ISTING FOREIGN-TRADE ZONE NO. 8, TOLEDO, OHIO

Expansion

The Port of Toledo, Toledo-Lucas County Port Authority, the grantee for Foreign-Trade Zone No. 8 at Toledo, Ohio, on March 15, 1963 made application to the Foreign-Trade Zones Board for authority to construct more warehouse facilities, amounting to 59,972 square feet, within the presently established zone boundary. The grant to establish the zone was issued by the Foreign-Trade Zones Board on October 11, 1960 and the zone officially opened on August 28, 1961. On June 19, 1962 authority was issued by the Foreign-Trade Zones Board for additional facilities amounting to 34,464 square feet.

The Committee of Alternates has reviewed the circumstances in this case and unanimously recommend that the request to expand further the warehouse facilities be granted.

Upon consideration the Board concurs in the Committee's recommendation and hereby adopts the following Resolution:

The Foreign-Trade Zones Board, after full consideration of the request from the Toledo-Lucas County Port Authority, Grantee, Foreign-Trade Zone No. 8, for permission to expand further, by 59,972 square feet, the warehouse facilities within the existing zone, approves the request.

The Executive Secretary of the Foreign-Trade Zones Board is directed to incorporate this memorandum order, the letters from the Secretary of the Treasury dated April 18, 1963, and the Secretary of the Army, dated June 14, 1963, approving the foregoing Resolution in the official records of the Foreign-Trade Zones Board. The Executive Secretary will publish the resolution in the FEDERAL REGISTER.

Dated: June 25, 1963.

[SEAL] LUTHER H. HODGES,
Secretary of Commerce, Chair-
man and Executive Officer,
Foreign-Trade Zones Board.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF-3143]

SKYSKOOTOR CO.

Order Temporarily Suspending Ex- emption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

JUNE 26, 1963.

I. The Skyskootor Company (issuer), 1027 North First Street, Phoenix, Arizona, an Arizona corporation, filed with the Commission on May 2, 1963, a notification and offering circular relating to an offering of 100,000 shares of its \$2 par value common stock at \$3 per share for an aggregate offering price of \$300,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that:

A. The issuer failed to comply with the terms and conditions of Regulation A in that (1) the notification on Form 1-A fails to disclose information as to predecessors required by Item 2(a), as to affiliates required by Item 2(b), as to promoters required by Item 3(c) and as to other present or proposed offerings required by Item 10, and (2) the offering circular fails to give the full names and complete residence addresses of all promoters and persons controlling issuer and the direct and indirect interests of each director, officer, promoter and controlling person in issuer, in an affiliate and in material transactions to which issuer and its predecessor and affiliates are or are to be parties as required by paragraphs (a) and (c) of Schedule I of Form 1-A.

B. The offering circular contains untrue statements of material facts and omits to state material facts necessary to make the statements made, in the light of the circumstances under which they were made, not misleading, with respect to:

1. The status of the basic contract between issuer and a predecessor company for the acquisition of its assets, property and business (including all right, title and interest in an autogyro aircraft, and related drawings, plans, specifications, inventory, parts and prototypes) to be used by issuer in the development and production of such autogyro aircraft;

2. The death of the developer of the aircraft in a demonstration flight and the causes thereof;

3. The status of an application made by the developer to the Federal Aviation Authority (FAA) for the certification of the aircraft as airworthy, and the nature of the data filed with the FAA;

4. The steps required to be taken to proceed with the development and modification of the aircraft in order to obtain FAA certification, the progress made since March 1962 in such development and modification, the cost of any further modification, correction and development necessary and the proposed retail price of the aircraft;

5. The essential characteristics of the proposed aircraft in comparison with conventional aircraft and helicopters and its relative advantages and disadvantages; the exact status of the design and development of the aircraft, its specifications and performance capabilities; the numbers of successful and unsuccessful flights; and the specific nature of the competition to be encountered in marketing the craft;

6. The identity and interests of certain unnamed promoters and affiliates;

7. The backgrounds of certain promoters and affiliates;

8. The existence, status and conditions of an exclusive sales agreement with an undisclosed affiliated corporation which would limit issuer's profits and divert profits to the affiliate, and the interest of certain promoters and affiliated persons therein.

C. The offering of issuer's securities would be made in violation of section 17(a) of the Securities Act of 1933, as amended.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended,

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

No. 123—7

[File No. 812-1595]

E. I. DU PONT DE NEMOURS AND CO.

Notice of Application for Order Exempting Certain Loans

JUNE 24, 1963.

Notice is hereby given that E. I. du Pont de Nemours and Company ("applicant"), Wilmington 98, Delaware, a Delaware corporation, has filed an application pursuant to sections 6(c) and 17(b) of the Investment Company Act of 1940 ("Act") for an order exempting from section 17(a)(3) of the Act the transactions described below whereby foreign companies controlled by applicant may make certain loans to their employees (including employees who are officers and/or directors of such company). All persons are referred to said application on file with the Commission for a full statement of the representations therein which are summarized below.

Christiana Securities Company ("Christiana"), a Delaware corporation and a registered closed-end investment company owns approximately 29 percent of the outstanding common stock of applicant. Under section 2(a)(9) of the Act, applicant is presumed to be controlled by Christiana. This exemption is requested on behalf of companies qualified to do business in foreign countries ("foreign affiliated companies") and of which applicant owns beneficially, or may so own, directly or indirectly, more than 25 percent of the voting securities and which are or will be presumptively controlled by applicant by reason of said ownership. Under the Act, such companies are also presumptively controlled by and affiliated persons of Christiana.

The foreign affiliated companies propose to establish programs under which they would make direct loans to employees, including employees who are also officers or directors of the companies, on a case-by-case basis, pursuant to general or specific authorizations by their respective boards of directors, to fill the void caused by the absence of credit facilities in their respective areas. The loans are to be made to alleviate the serious problems of employees who are desirous of making capital purchases such as houses, automobiles and household appliances, or who are attempting to meet such major family expenses as higher education for children, house repairs and improvements, and similar expenses considered important to an acceptable standard of living. Unless employers provide help to employees in meeting their problems, turnover of personnel is high especially among the higher and middle management groups which include officers. It is proposed that the loan program approved by the board of directors of any foreign affiliated company would contain the following limitations, or ones that are more stringent, namely: no such loan shall be made to any director or officer of applicant; such loans outstanding at any time from any such affiliated company shall not exceed in the aggregate the lesser of (a) the foreign currency equivalent

of \$250,000, or (b) 10 percent of the total annual payroll; and the amount on loan by any such affiliated company to an individual at any time shall not exceed three years' gross salary or wage of the borrowing employee. It is also proposed that interest be charged on the unpaid balance of any loan at the bank interest rate prevailing in the area at the time the loan was effected, unless the circumstances in a particular case indicated that it would be beneficial to the affiliated company to do otherwise. Repayment of any loan would be required in the shortest time consistent with the financial status of the employee in order to discourage employees from obtaining employer loans except in cases of necessity. Large loans to finance the building or purchase of homes by employees or for other needs involving significant amounts would be subject to terms and conditions deemed necessary to afford protection to the lenders, such as provisions for reasonable maximum duration of the loans and for payments in installments deducted from the employees' salary or wage checks. When available, life insurance could be taken out by the affiliated company to protect itself against loss on any loan through death of the borrower.

Section 17(a)(3) of the Act, as here applicable prohibits an employee or other affiliated person of an affiliated company of a registered investment company from borrowing any money from any company controlled by such registered investment company. Section 17(b) of the Act provides that the Commission shall upon application exempt a proposed transaction from the provisions of section 17(a)(3), if it finds that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the Act and is consistent with the general purposes of the Act. Section 6(c) authorizes the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and the rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than July 9, 1963, at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air

mail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address set forth above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

For the Commission (pursuant to delegated authority).
